CRIMINAL BACKGROUND CHECK AND DRUG SCREENS

Students will be required to obtain a criminal background check and possible drug screen for the clinical site. This is a requirement for clinical participation, not a college requirement. Please see instructions below for steps in the process. The student should be aware of findings, such as, but not limited to drug abuse, child/elder abuse, or theft may result in the facility refusing permission to allow you to enter the clinical site. **The clinical facility reserves the right to decide if students with criminal histories will be permitted in the facility. Students who are denied clinical rotation by the facility will not be eligible to continue in the program. Viewpoint Screening is the only agency background check accepted for the CNA program.** The clinical site reviews the criminal background check. Each clinical site has the final determination if a student will be allowed at their site. Sites may vary in their requirements to participate in their facility. Please consult with the HR representative if you have any questions.

Note: Conviction of certain crimes may prevent students from gaining employment.

Please see the [Viewpoint Screening Step by Step Instructions](#) for Students to order your background check, drug screen, and health portal.
